*Education is the cocoon where the soul
transforms into a butterfly of wisdom*

EDUCATION: THE WINGS OF OUR FIRST FLIGHT

Editorial Note

Education, like the journey of a butterfly, is a story of transformation. From a small seed of curiosity to the graceful flight of wisdom, every stage of learning shapes who we are meant to become. Just as the butterfly must pass through its cocoon to discover its wings, education nurtures us through challenges, patience, and growth—until we emerge, ready to soar into the world with beauty, purpose, and strength.

At Jayarani College, Salem, every student is a symbol of this metamorphosis. Within the vibrant environment of our classrooms and activities, young minds evolve—learning, unlearning, and relearning—developing resilience, creativity, and confidence. Each experience, whether academic or personal, adds a new hue to their wings, preparing them to fly gracefully in the skies of life.

This September issue celebrates the spirit of transformation through education. It reflects how our college continues to guide students toward self-discovery, empowerment, and excellence. May the wings of knowledge carry each learner beyond boundaries, reminding us all that education is not the end of growth, but the beginning of flight.

With warm wishes for a fruitful year ahead
